

Gormandale Public School

We have the Power

**By the Students, Paul Jarman and Peter Jacob
January 2007**

**We have the power running through our town.
We have the power from the coal in the hole in the ground.
We have the power to light up the world.
We have the power, we are Gormandale.**

**Feeling thirsty; drink PowerAde.
Quench our thirst sitting in the shade.
With the power in the sun,
Growing stronger everyday.**

**Building houses with a power tool.
Living your dreams day by day.
Making life so powerful,
That you will rise up to the sky.**

**Drive to Gormandale with power steering.
Round and round this life we go.
Swimming, running, riding, strumming,
As long as we stay on track.**

**Feel like a rest; have a powernap.
Prepare your brain for another day.
Think of your dreams and tell someone.
Close your eyes and use the power.**

**We've got a power pump for Gormandale,
Pump the water to fight the fire.
Save the day for everyone,
And that's the way it's going to stay.**

Arrangement

Chorus

Verse 1 – Actions

Chorus
